THE HONGKONG DISPENSARY.
Hongkong, 25th November, 1885.

JOHN SUTHERLAND. The Imperial Government have already relinquished the practice of imposing quarantine, and with this testimony before them it is hardly likely, we imagine, that they will longer sanction it in the Crown Colonies.

H. B. M. S. Agamemnon. Captain S. Long, returned to her moorings yesterday.

The French gunboat *Aigle*, Capt. Jouquer, from Amoy 29th instant, arrived here yesterday.

We would remind our readers that the Banks and Finance offices will be closed for the transaction of public business to-morrow, as indicated by advertisements on our front page.

Sir G. M. Mitchell-Innes was on the Beach as Police Magistrate yesterday. There being only a few unimportant cases to dispose of and Mr. Wise hearing the majority of them, the court rose early.

On reference to the sailing notice on our third page, it will be seen that the Pacific Mail S.S. Co.'s steamer *City of Peking*, intended to leave for San Francisco on or about the 15th proximo, will go via Honolulu.

NOTICE TO CORRESPONDENTS.

Communications on editorial matters should be addressed "The Editor," and those on business "The Manager," and not to individuals by name.

Advertisements are requested to forward their name and address with communications addressed to the Editor, not for publication, but as evidence of good faith.

All letters for publication should be written on one side of the paper only.

Advertisements and Subscriptions which are not ordered for a fixed period will be continued until cancellation.

Order for extra copies of the *Daily Press* should be sent before 11 a.m. on the day of publication. After that hour, the supply is limited.

The Daily Press.

HONGKONG, DECEMBER 31ST, 1885.

The following remarks contained in the final paragraph of the official report on Asiatic cholera, drawn up by a Committee convened by the Secretary of State for India for the purpose of taking into consideration a Report by Drs. E. KLEIN and HENRAGE GUINNESS entitled "An Inquiry into the Etiology of Asiatic Cholera," which committee comprised the most eminent authorities in the English medical world, deserve special attention here as follows:—

Although the precise cause of cholera has not been ascertained, it is known in the general character of the disease as a trustworthy basis for practical action, and the fact that they could not separate without expressed the conviction that sanitary measures in their true sense, namely, thorough methods alone, are the only trustworthy means to combat cholera. It is, therefore, to restrain its spread and mitigate its severity which preventive measures in Europe and in the East have been taken, sanitary controls and quarantine restrictions being the chief means for arresting the progress of cholera, but possibly injurious; and this not merely because of the expense, but also because they create alarm during periods of epidemics of the disease, and do not constantly exist for the prosecution of sanitary measures, and the value—measures which, moreover, tend to mitigate the incidence of all forms of disease.

What better authority could we have for urging the pressing need of sanitary measures as prophylactic, and proclaiming the utter worthlessness and even mischievousness of quarantine? We have lately had an illustration of the hardship of work by "quarantine laws" in the case of a steamer which having two cases of cholera on board was quarantined here, and did not get release for so long a period, more than three weeks if we remember rightly, thereby causing heavy loss to the owners and no advantage to the safeguard to the population. In the face of the opinion delivered by the highest experts of medical science—numbering among them Dr. WILLIAM AITKEN, F.R.S., Professor of Pathology, Army Medical School; Dr. J. BUXTON-SANDERSON, LL.D., F.R.S., Waynflete Professor of Physiology, Oxford; Dr. NORMAN CHEEVERS, C.I.E., Deputy-Surgeon-General, late Principal and Professor of Medicine, Medical College, Calcutta; Dr. F. D. CHAMOIS, F.R.S., Professor of Hygiene, Army Medical School; Sir JOSEPH FAURE, K.C.S.I., LL.D., F.R.S., Surgeon-General, Physician to the Council of India; Sir WILLIAM W. GULL, D.C.L., LL.D., F.R.S., Physician Extraordinary to the Queen, Physician in Ordinary to the Prince of WALES; Sir W. GUYER HUNTER, K.C.M.G., Surgeon-General, Honorary Surgeon to the Queen, late Principal and Professor of Medicine, Medical College, Bombay; Sir WENDELL JENNER (President), K.C.B., D.V.L., LL.D., F.R.S., Physician in Ordinary to the Queen, and many others—it is difficult to see how quarantines can be any longer upheld in any part of Her Majesty's dominions, and especially in a place like Hongkong, where the obstacles in the way of properly enforcing its provisions are insuperable, owing to the impossibility of exercising an effective supervision over the native craft. We hope therefore the Colonial Government will lose as little time as possible in repealing the quarantine regulations, and at the same time push forward with all expedition the needed sanitary measures. Prevention is better than cure, and if steps are taken to prevent hotbeds for the development and spread of an epidemic being formed in our midst it will be far more effective in averting disaster than any efforts to check disease after it once gains a hold. We hope so far for unfortunately escaped any serious epidemic of cholera, though sporadic cases have occurred on several occasions, but we have been warned that if the saturation of the soil with water that should be carefully drained away goes on much longer, some disastrous epidemic will eventually overtake us. The improvement of our drainage and the general sanitation of the Colony therefore requires urgent attention, but the precaution of quarantine can be dispensed with. The proposed law, on St. Helena's Island should be enacted before the summer comes again, so that it may be ready for use if required, and vessels having discharged any patients they may have there, right, after fumigation, be at once given free pratique. The Military and Naval Authorities have, we believe, pronounced in favour of quarantining, moved thereto by solicitude for the health of the forces; but they will perhaps be reassured by noting on the Committee who made the report quoted from above the names of some of the highest authorities in the Army, Medical Service, to which may be added those of Sir WILLIAM E. SMART, late Inspector-General of Hospitals and Fleets; Dr. TIMOTHY RICHARDS LEWIS, Dr. JEFFREY A. MASON, and Dr.

At the regular meeting of the Zealand Judges on December 29th, held on the evening of that date, Mr. Bro. J. C. Cox, who had been re-elected W.M., invested the officers for the ensuing year as follows:—S.W., Bro. M. Falconer; J.W., Bro. C. A. Cornish, Treasurer, Bro. J. Wilmett, Secretary, Wor. Bro. W. M. B. Arthur; S.D., Bro. J. D. Ball; J.D., Bro. A. D. Death; D.C., Bro. W. S. Ramsey, Steward, Bro. G. A. Taylor; Tyler, Bro. J. R. Grimes.

The London *Globe* of the 21st ult. says:—

"There can be only one objection to Mr. Clifford Lloyd's appointment to the office of Colonial Secretary of Mauritius—namely, that he may be urgently wanted in Ireland. But it is to be hoped that the rumour alluded to may be due to the reported summons, by telegraph, to London of Sir John Pope Hennessy by Lord Salisbury. At any rate the post of Minister to Peking has been filled up by the appointment thereto of Sir John Walham."

LATEST TELEGRAMS.

LONDON, 29th December.

THE PRESIDENCY OF THE FRENCH REPUBLIC.

M. Jules Grévy has been re-elected by a large majority, President of the French Republic for a term of seven years. The Right of the Chamber mostly abstained from voting.

THE HONGKONG EXHIBITION.

The articles to be sent from Hongkong to the Colonial and Indian Exhibition were on view yesterday at the City Hall. No one after visiting the show will doubt the wisdom of Hongkong's taking part in this important undertaking—one which is calculated at once to promote commerce and to further that moral federation of the empire which must necessarily follow from the more extended acquaintances with each other of its several parts. The Hongkong Court will add materially to the interest and profitableness of the exhibition as a whole, and cannot fail to benefit the colony. It is true the productions of the colony are limited, but that they are not so limited as has been generally supposed is plainly evidenced by what is now on view at the City Hall, and in addition to the productions there are exhibits illustrative of the social life of the colony. The local exhibition, however, but inadequately represents what the court is intended to be when finally arranged in London. Somewhat less than half the total number of exhibits expected are shown, and the general arrangements are not so complete and for that reason the moral federation of the empire which must necessarily follow from the more extended acquaintances with each other of its several parts. The Hongkong Court will add materially to the interest and profitableness of the exhibition as a whole, and cannot fail to benefit the colony. It is true the productions of the colony are limited, but that they are not so limited as has been generally supposed is plainly evidenced by what is now on view at the City Hall, and in addition to the productions there are exhibits illustrative of the social life of the colony.
